

Industrial technician

Location: Massy

Contract: Full-time

Department: Manufacturing

Telework options: hybrid on site – remote

Job Context

For over 20 years, Ekinops has been driving innovation in network systems. We provide solutions focused on the needs of communication service providers and enterprises worldwide.

We provide **open, trusted** and **innovative network connectivity** and enable our **customers' success** by delivering **high value-added** software-driven solutions. Today, over 120 international service providers, including numerous Tier 1 carriers around the world, trust our people and technologies.

Duties and Responsibilities

Within the Manufacturing department, for the Access portfolio, the industrial technician ensures the management of industrial files (BOM, drawing, assembly instructions, etc.).

Reporting to the Industrialization Team Leader, you will be responsible to create, distribute and maintain up to date these files towards Production plants.

Your main role will involve:

- Parts creation (MM) in SAP
- BOM creation (CS)
- Prepare and maintain procedures and work instructions to ensure a high level of quality and productivity (product assembly, packing instructions, palletization, etc)
- Work in close collaboration with the Industrial Project Manager, R&D and Production groups to prepare the manufacturing roll-out for new products
- Provide support to Production in case of questions
- Continuously keep the database up to date (creation, obsolescence, etc.)
- Distribute Manufacturing Change Note (MCN) to Production sites

You will be in charge of the maintenance and evolution of documentation throughout the product lifetime.
