PRESS RELEASE

Ekinops selected by SLT-MOBITEL Enterprise as next-gen connectivity solution for **corporates**

Paris, 18 June, 2025 – Ekinops (Euronext Paris - FR0011466069 – EKI), leading supplier of optical transport, enterprise connectivity and SASE solutions, announces that SLT-MOBITEL, Sri Lanka's National ICT solutions provider, will use its advanced network connectivity portfolio for services to enterprises across the island.

Together, SLT-MOBITEL Enterprise and Ekinops are unlocking powerful Smart Connect solutions, built on virtualization, advanced access technologies, and a shared vision for secure, scalable, and seamless business connectivity.

"Ekinops is a complete solutions provider of networking and connectivity beyond just innovative hardware and software," said **Pradeep Gnanasekaram, Business Development Director APAC, Ekinops**. "Many of our service provider customers including SLT-MOBITEL Enterprise need the expertise a trusted vendor can bring. Ekinops is committed to supporting SLT-MOBITEL with a portfolio designed to accelerate the digital transformation of enterprises."

"We are excited to announce our partnership with Ekinops, a global leader in access network solutions, to bring next-generation connectivity to Sri Lankan enterprises," said **Prabhath Dahanayake, Chief Marketing Officer, SLT-MOBITEL**. "We are combining forces to develop intelligent connectivity solutions and harness power virtualization and leading-edge technologies. Whether businesses are expanding, evolving, or digitally transforming, we have the network infrastructure to move them forward."

About EKINOPS

Ekinops is a leading provider of open, trusted and innovative network connectivity solutions to service providers around the world. Our programmable and highly scalable solutions enable the fast, flexible, and cost-effective deployment of new services for both high-speed, high-capacity optical transport as well as virtualization-enabled managed enterprise services.

Our product portfolio consists of three highly complementary product and service sets: EKINOPS360, OneAccess and Compose.

- EKINOPS360 provides optical transport solutions for metro, regional and long-distance networks with WDM for high-capacity point-to-point, ring, and optical mesh architectures, and OTN for improved bandwidth utilization and efficient multi-service aggregation.
- OneAccess offers a wide choice of physical and virtualized deployment options for Layer 2 and Layer 3 access network functions.
- Compose supports service providers in making their networks software-defined with a variety of software management tools and services, including the scalable SD-WAN Xpress, Nuvla.io Edge-to-Cloud and Olfeo's SSE solutions.

As service providers embrace SDN and NFV deployment models, Ekinops enables future-proofed deployment today, enabling operators to seamlessly migrate to an open, virtualized delivery model at a time of their choosing.

A global organization, Ekinops (EKI) - a public company traded on the Euronext Paris exchange operates on four continents.
