PRESS RELEASE

# Ekinops Selected by TDC NET to Launch Wholesale Carrier Ethernet Services in Denmark

**PARIS, 4 November 2025 – EKINOPS (Euronext Paris - FR0011466069 - EKI)**, leading supplier of telecommunications solutions for telecom operators and enterprises, announced today that it has been selected to modernize and upgrade the Carrier Ethernet Customer Services of TDC Net, the leading telecom provider in Denmark, with its latest MEF 3.0 certified Ethernet Access Devices (EAD) running OneOS6 software.

The selected 1647 and 1651 EADs are designed to meet the growing demand for high-bandwidth Carrier Ethernet services delivering up to 10 Gbps. The products offer a range of features such as advanced traffic management, quality of service (QoS) and advanced Operation and Maintenance (OAM), which will enable TDC NET to provide scalable and high-quality Ethernet services to its customers, ensuring seamless connectivity and high-speed data transfer.

Ekinops OneOS6 software, well-known as the layer 3 routing operating system on Ekinops routers, has been made available for EAD layer 2 devices. With its advanced features and open architecture, OneOS6 is a strong differentiator for service providers and enterprises as it simplifies operations, reduces costs, and provides carrier-grade network services.

"We are pleased to partner with TDC NET and to upgrade their Carrier Ethernet Customer Services with our latest EAD solutions," said **Frank Dedobbeleer, Chief Revenue Officer EMEA & APAC at Ekinops**. " We are confident that our advanced solutions will enable TDC NET to provide superior customer experience, while ensuring seamless connectivity and high-speed data transfer."

**About EKINOPS**

Ekinops is a leading provider of open, trusted and innovative network connectivity solutions to service providers around the world. Our programmable and highly scalable solutions enable the fast, flexible, and cost-effective deployment of new services for both high-speed, high-capacity optical transport as well as virtualization-enabled managed enterprise services.

Our product portfolio consists of three highly complementary product and service sets: EKINOPS360, OneAccess and Compose.

- EKINOPS360 provides optical transport solutions for metro, regional and long-distance networks with WDM for high-capacity point-to-point, ring, and optical mesh architectures.
- OneAccess offers a wide choice of physical and virtualized deployment options for Layer 2 and Layer 3 access network functions.
- Compose supports service providers in making their networks software-defined with a variety of software management tools and services, including the scalable SD-WAN Xpress, Nuvla.io Edge-to-Cloud and Olfeo's SSE solutions.

Ekinops (EKI) - a public company traded on the Euronext Paris exchange operates globally.
